

# COLIN AZELTINE

---

## SKILLS

A digital product designer with over eight years of professional experience between in-house and agency roles. I have fluency in all relevant visual design tools including Figma, Sketch and Adobe Creative Cloud, and am comfortable working in modern prototyping tools.

Along with being a well versed designer, I began writing code when I was twelve years old, and have contributed throughout my career in hybrid designer/developer roles.

I'm looking for a highly collaborative, nourishing environment where I can contribute as part of a team, and further develop my creative leadership skills.

## EXPERIENCE

### MasterClass, San Francisco, CA

SENIOR DIGITAL DESIGNER: OCTOBER 2022 - PRESENT
